
AI RESUME ANALYZER – COMPLETE DEMO KIT
BCA Final Year Major Project Presentation

DEMO FILES INCLUDED

Resume 1 → Resume1_Arjun_Mehta_ML.pdf

Profile: ML Engineer, Python, TensorFlow, Docker, AWS

Expected ATS Score: ~70-80% (GREEN gauge)

Resume 2 → Resume2_Sneha_Kapoor_WebDev.pdf

Profile: Web Developer, React, JavaScript, Node.js

Expected ATS Score: ~40-55% (AMBER gauge)

Resume 3 → Resume3_Rahul_Verma_Fresher.pdf

Profile: Fresher, only Java, HTML, C

Expected ATS Score: ~10-20% (RED gauge)

JOB DESCRIPTION 1 – ML Engineer Role

Use with: Resume 1 (Arjun) → Shows HIGH JD Match

We are hiring a Machine Learning Engineer at our AI Research Lab.

Requirements:

- Strong programming skills in Python and SQL
- Hands-on experience with Machine Learning and Deep Learning frameworks
- Proficiency in TensorFlow or PyTorch for model development
- Experience with NLP, Computer Vision, or related AI domains
- Knowledge of Docker for containerization and deployment
- Cloud experience with AWS or GCP is highly preferred
- Familiarity with Git for version control
- Understanding of NumPy, Pandas, and Scikit-learn for data processing
- Good problem-solving and analytical skills

Freshers with strong project portfolios are welcome to apply.

46 JOB DESCRIPTION 2 – Full Stack Developer Role
47 Use with: Resume 2 (Sneha) → Shows MEDIUM JD Match
48

49
50 We are looking for a Full Stack Developer to join our product team.

51
52 Requirements:

- 53 - Strong proficiency in JavaScript, TypeScript, HTML, and CSS
- 54 - Experience building frontend applications using React or Angular
- 55 - Backend development experience with Node.js or Python
- 56 - Database management using MongoDB or MySQL
- 57 - REST API design and integration experience
- 58 - Knowledge of Git for version control and collaboration
- 59 - Familiarity with Docker and cloud deployment is a plus
- 60 - AWS or Firebase experience preferred
- 61 - Strong communication and teamwork skills

62
63 0-2 years of experience. Fresher with good projects can apply.
64
65

66

67 JOB DESCRIPTION 3 – DevOps / Backend Role
68 Use with: Resume 3 (Rahul) → Shows LOW JD Match + heavy suggestions
69

70
71 We are hiring a Junior Backend / DevOps Engineer for our infrastructure team.

72
73 Requirements:

- 74 - Proficiency in Python and SQL for backend development
- 75 - Hands-on experience with Docker and Kubernetes for containerization
- 76 - Cloud platform knowledge – AWS, Azure, or GCP
- 77 - Experience with Linux systems administration
- 78 - Knowledge of CI/CD pipelines and Git workflows
- 79 - Backend framework experience – FastAPI, Django, or Flask
- 80 - Understanding of Machine Learning deployment pipelines is a plus
- 81 - Strong debugging and problem-solving skills

82
83 This is a growth role for candidates who want to build scalable systems.
84
85

86

87 DEMO SCRIPT – WHAT TO DO IN ORDER
88

89
90 SETUP (before demo starts):

```
91   Terminal 1 → cd backend → uvicorn main:app --reload
92   Terminal 2 → cd frontend → npm run dev
93   Browser    → open http://localhost:5173
94
95   ---
96
97   DEMO ROUND 1 – "Strong Resume + Right Job"
98   Upload:   Resume1_Arjun_Mehta_ML.pdf
99   JD:       Paste JD 1 (ML Engineer)
100  Click:    Analyze Resume
101  Show:     High ATS score (green gauge), high JD match
102  Say:      "This candidate's resume is well-optimized.
103           Both gauges are green. Minimal suggestions."
104  Action:   Click Download Report → show the PDF downloads
105
106  ---
107
108  DEMO ROUND 2 – "Medium Resume + Different Job"
109  Upload:   Resume2_Sneha_Kapoor_WebDev.pdf
110  JD:       Paste JD 2 (Full Stack Developer)
111  Click:    Analyze Resume
112  Show:     Medium ATS score (amber), skill chips visible
113  Say:      "Sneha has web skills but is missing some keywords
114           the JD specifically requires. Score is moderate."
115  Action:   Point out the Missing Skills chips in red
116
117  ---
118
119  DEMO ROUND 3 – "Weak Resume – Maximum Suggestions"
120  Upload:   Resume3_Rahul_Verma_Fresher.pdf
121  JD:       Paste JD 3 (DevOps/Backend)
122  Click:    Analyze Resume
123  Show:     Low ATS score (red gauge), lots of missing skills
124  Say:      "Rahul is a fresher with limited technical skills.
125           The system clearly identifies what he needs to
126           add and gives specific suggestions to improve."
127  Action:   Scroll to Suggestions section – show all tips
128
129  ---
130
131  KEY POINTS TO MENTION DURING DEMO:
132  ✓ Drag and drop upload (show it)
133  ✓ Works without JD too (just overall ATS)
134  ✓ 40+ skills in detection list
135  ✓ Section checker shows Education/Experience/Skills/Projects
```

- ✓ Color-coded skill chips (green = found, red = missing)
- ✓ PDF report downloads instantly
- ✓ Real-time – no page reload needed

WHAT TO SAY IF TEACHER ASKS WHY 3 SCORES DIFFER

"The system gives two scores:

1. Overall ATS Score – based on all 40+ skills in our database
2. JD Match Score – based only on skills the specific job requires

This is intentional. A resume strong in ML might score low on an ATS designed for a web developer role, and vice versa. Our system shows both so the user gets the complete picture."
